ELECTRIC MIRROR USHERS IN HOTEL ROOM OF THE FUTURE WITH NEW SAVVY SMART MIRROR

Savvy™, part of company's Inspired Technology collection of products, puts guests in control of their hotel experience

EVERETT, WA (May 1, 2017) – Electric Mirror (www.electricmirror.com), the global leader in mirror technology, introduces Savvy, the world's smartest mirror. The Savvy SmartMirror™ is available for specification in the global hospitality market beginning Fall 2017.

Savvy turns the ordinary into the extraordinary. No longer is a mirror simply for looking at a reflection. With Savvy in the mirror, hotel guests have the world at their fingertips. And their entire hotel experience under their control.

"Savvy provides the information guests want when they travel—news, weather, traffic, and much more," said Jim Mischel, Electric Mirror CEO. "Savvy can be customized for any hotel, letting guests control the ambiance of their guest room. Savvy connects the guest with all of the hotel's services, and lets them know what's going on both within the hotel as well as nearby."

Savvy is proprietary and patent pending, and includes features designed specifically for hotels. With Savvy, guests will be able to contact the concierge for dinner reservations, ask the valet to retrieve their car, set a lighting scene for their room, lock the door and open the curtains, plus much more. The Savvy mirror itself will provide hotel information, play the guest's favorite music, broadcast their favorite TV show, stream real-time news, sports and stocks, and even change colors to adjust the room ambiance. Savvy will create a level of luxury and pampering for hotel guests that's never before been seen.

--More--

Savvy joins the Electric Mirror Inspired Technology collection of products, which also includes Vive™, a Bluetooth-enabled music mirror; Keen™, an automatic dimming and energy-saving mirror; Ava™, a color-changing mirror for make-up application; Seamless™, an embedded LED clock; and Mirror TVs, which display a television in the mirror. Savvy will be available in both bathroom mirrors and guest room mirrors.

Electric Mirror Inspired Technology products, including Savvy, will be on display at upcoming industry tradeshows, including HD Expo, May 3-5 in Las Vegas, Nevada. Electric Mirror invites attendees to visit its booth to personally try out Savvy and the other Inspired Technology products.
