- Reflective Mirror
- Ultra-bright LED technology
- Completely Vanishing TV in the off position
- Patent pending V-Mirror Technology
- Ultra-thin 32" 46" 50" or 55"
- Multiple frame options

A growing trend in the luxury hotel segment, guestroom mirror TVs are a perfect way to seamlessly integrate a large LED screen into the guestroom design. Electric Mirror is the only manufacturer of V-Mirror technology that allows for a truly bright and vibrant image when turned on, and a completely reflective surface when off.

**Hospitality TV** First mirror TVs for the guestroom that can network with major IPTV and VOD providers.

### For Guestroom TV Applications

V Mirror™ Technology is the ideal solution.

For the ultimate element of surprise, Mirror TVs utilizing V-Mirror Technology allow the TV screen to completely vanish when turned off. Electric Mirror uses the brightest LCD-TVs on the market to offer the clearest picture to transmit when turned on. The reflection of V-Mirror is darker than that of AV and BOE technologies.
