One of the most overlooked spaces in many hotel design schemes, the hotel corridor sets the stage for a guest's initial impression of their hotel room. By combining mirrors to create an impression of larger space, back lighting to brighten a dark hallway, and design to tell a story, you can transform a lackluster hotel corridor into a spacious, well lit, art walk.

Electric Mirror customizes mirror corridor sconces, including room numbers, to help you create the ultimate impression.

Experience what luxurious lighting elements in corridors can do for your entire project. Ask about Electric Mirror corridor sconce designs today: 425.776.4946 or consultants@electricmirror.com.
