

SPECIFICATIONS:

- Wood should be premium quality hardwood, kiln dried to a moisture content of 8-10% at the time of manufacturing
- All furniture legs and frames should be made of solid hardwood
- All the exposed surfaces will be free from any defects such as knots, splits, and shakes
- All products must be inspected by supplier and guaranteed to be delivered pest-free
- Premium grade MDF cores, with a minimum density of 45 pounds per cubic foot or 720 kg per cubic meter
- Veneer thickness should be a minimum of 0.6 mm
- Face veneers should be Grade 1 flat cut, quartered, or high-quality engineered veneer
- All stainless should be of a gauge appropriate to piece and have no objectionable weld joints
- Polishing must be done to a satisfactory finish to allow for proper plating adhesion
- Plated and powder-coated components must pass the salt test
- Metal finishes must have clear enamel matte coating, clear rust inhibitor, baked enamel, or powder-coated finish for humidity protection to prevent rust and corrosion
- Manufacturer to ensure materials are non-corrosive and suitable for use in high humidity and salt air locations as required
- Legs must have a non-corrosive metal cap to protect the feet from water damage
- When the vanity is wood construction, the finish must be a catalyzed waterproof finish
- The finish must be resistant to water, alcohol, and cosmetics
- All edges are sanded for a smooth and softened appearance
- Sink clips will be included with the sink

AVAILABLE OPTIONS:

- Under-cabinet lighting
